ROD (L) 085/19

MR. EFREN B. CARIDO
OIC Regional Director
Mines and Geosciences Bureau 7
Greenplains Subd., Banilad, Mandaue City

Dear Director Carido:

We are pleased to submit to your office the enclosed report of Carmen Copper Corporation's Social Development and Management Program (SDMP) Physical and Financial Accomplishment Report for the first quarter of this year (January – March 2019).

This report contains our company's implementation and expenditure of the programs, projects and activities of our 2019 SDMP for the first quarter which is aligned to the UN Sustainable Development Goals (UN SDG). This also highlights our various accomplishments in the development of our host and neighboring communities in Toledo City in our different focus areas, such as: education, health and well-being, skills and enterprise development, preservation of cultural heritage and disaster resilience and rehabilitation.

Last January 30, 2019, we were honored to have been recognized and awarded by the Public Relations Society of the Philippines with the Silver Anvil Award for our 2017 Sustainability Report entitled "Responsible Stewardship". This Report is aligned with the UN SDG and is a testament of the company's commitment to the United Nations Global Compact Principles.

We wish to thank your good Bureau for being our co-steward in responsible mineral development. Rest assured, Carmen Copper will continuously build sustainable communities and bring social progress in the communities that we serve.

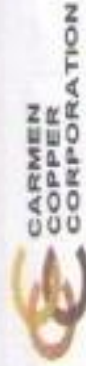

Respectfully submitted.

Very truly yours,

Roy O. Deveraturda
President and CEO

Don Andres Soriano, Toledo City, Cebu, Philippines, 6038

2019 1st Quarter Social Development and Management Program (SDMP) Report

With our steadfast commitment to the sustainable development in our communities, we continuously supported our stakeholders in our host and neighboring communities with programs, projects and activities that will bring about socio-economic growth and development in our localities through the formulation and consequent implementation of our Social Development and Management Program (SDMP) which is anchored on the following programs:

I. DEVELOPMENT OF HOST AND NEIGHBORING COMMUNITIES

1. Human Resource Development and Institutional Building

A training was conducted on "Organic Feeds Formulation using Corn By-products and other Local Ingredients for Livestock and Poultry" sponsored by the Agricultural Training Institute, Regional Training Center 7 last March 5-7, 2019 held at the Demo Farm, Poblacion, Alegria, Cebu. Five (5) Community Relations (ComRel) coordinators and two (2) partners from the community attended the training.

2. Enterprise Development and Networking. Cost P 239,155.00

After establishing the Carmen Copper's Integrated Farm, the Copper Mines Agro Venture Organization (CMAVO) has sustained its production. The farm is now the primary source of various high valued vegetable crops such as cauliflower, cabbage, lettuce, carrots and other harvests that are supplied to the local market. The employees of Carmen Copper are ready buyers of the farm's produce, too.

CARMEN COPPER CORPORATION
 Mining Responsibly for a Sustainable Future

SUSTAINABLE INTEGRATED FARM
"Daily Fresh"

ZERO WASTE CONCEPT

A model farm of CARMEN COPPER CORPORATION through its Social Development and Management Program (SDMP).

3. Assistance to Infrastructure Development and Support Services.
Cost P 8,666,412.52

- A. We built and repaired road networks in our communities for improved access between barangays, which has benefitted the residents especially students and local farmers who need to transport their produce to markets and commercial centers. This has transformed countless lives by unlocking economic opportunities and expanding access to essential services like healthcare and education.

now provide clean, safe and potable water to more than 2,500 pupils from Buswang Elementary School (184), Bagacay Elementary School (281), Old Bucao Elementary School (780) and Magdugo Elementary School (1,115). The Aqua Tower Project will not only benefit the school children, but the entire community. The Aqua Tower can serve 1,000 persons a day.

5. Access to Health Services, Health Facilities and Health Professionals. Cost P6,170,650.21

Through our Doktor to the Barangay Program, we continuously conduct free medical consultations and provide medicines to indigent residents in our host and neighboring barangays. Photos below shows free consultation conducted at barangay Pangamihan, Toledo City.

We completed the renovation of the Barangay Health Center at Don Andres Soriano with the provision of latest medical equipment. It will be officially turned over to the barangay very soon.

6. Protection and Respect of Socio-Cultural Values. Cost P218,309.80

We provided support to different religious, traditional and cultural activities in our communities in the form of financial assistance. We extended it to our community partners, local government units, religious groups and other stakeholders. We also assisted in the renovation and improvements of various chapels in our communities.

Cantabaco Seventh Day
Adventist Church

BEC Hi-Way 81 Chapel,
Brgy DAS

7. Use of facilities/services within the mine site. Cost P2,205,011.25

We provide free transportation to the students and local residents of barangays Biga, Bagacay, Loa-ay, General Cilmaco (Malubog) and Media Once. Our buses are also used by our community partners in transporting their agricultural produce to the nearby market.

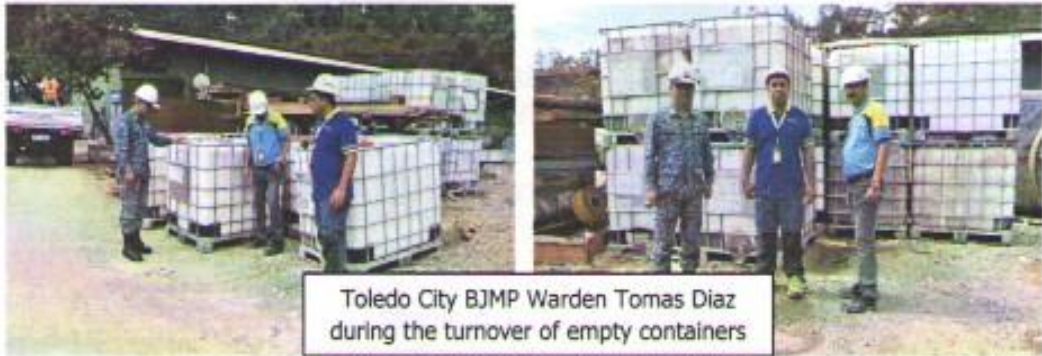

We also provide electrical power subsidies to barangay DAS, De La Salle Andres Soriano Memorial College and Our Lady of Mt. Carmel Church in barangay DAS, Toledo City.

8. Assistance to difference stakeholders in host and neighboring LGU. Cost P730,853.00

During the first quarter, we distributed more than 20 empty containers (dow froth) that may be used as water impounding facility by the different stakeholders namely: schools, day care

centers, health center in barangay Media Once, and the Bureau of Jail Management and Penology (BJMP), Toledo City.

II. Development of Mining Technology and Geosciences. Cost is 2,128,126.56

We continuously support programs, studies, and activities of students and professionals that promotes the development of mining technology and geosciences. Last March, we produced four graduates of Bachelor of Science in Mining Engineering through our Scholarship Program. They shall be the next generation of responsible miners in Toledo.

Mining Engineering graduates (L-R) Ethylwyne A. Paran, Kent Harold C. Largo and Justin Omambac. Not in photo: Gerald A. Jore.

III. Promotion of Public Awareness and Education on Mining Technology and Geosciences. Cost is P1,458,057.61

We intensified our information, education and communication campaign with the rebranding of our SDMP brand – Carmen Copper Communities. In place of our corporate logo, we embarked on a community campaign that responsible stewardship is a shared commitment. We raised awareness among our stakeholders on the projects, programs and activities that we implement in our communities and we educate our partners on their role to sustain these projects.

Last January 30, Carmen Copper won the **Silver Anvil Award** for its 2017 Sustainability Report. The 56-page sustainability report entitled "**Responsible Stewardship**" highlights the company's programs on sustainable development anchored on its role as a responsible steward of the natural resources which it mines, the environment which serves as habitat of diverse species, the talents who contribute to its sustainability and the communities the embrace its activities as part of their heritage.

**Responsible Stewardship:
CCC Sustainability Report 2017**

**Silver Anvil Award
For 2017 CCC Sustainability Report**

Gabing Parangal was held at the Grand Ballroom of the Manila Marriott Hotel, Pasay City last January 30.

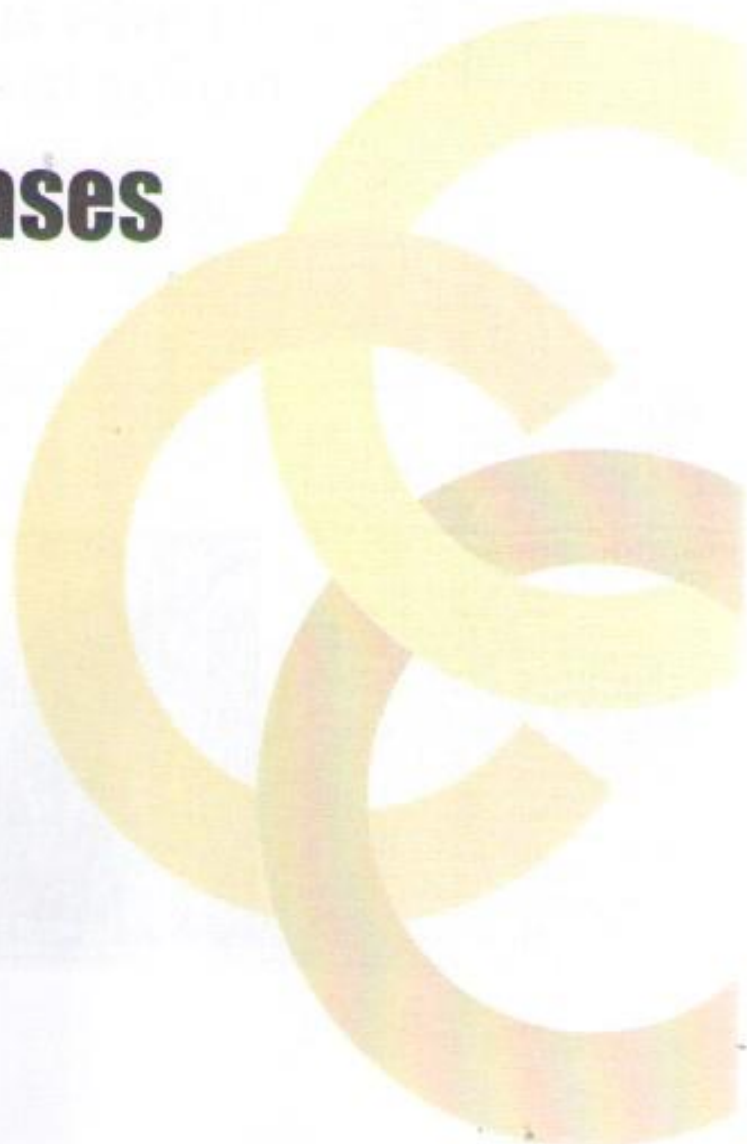

During the first quarter, we also successfully prepared and obtained the GRI Materiality Disclosure Stamp for our 2018 Carmen Copper Corporation Sustainability Report that will be up for printing and publication this April.

2018 CCC Sustainability Report
With GRI Materiality Disclosure Stamp

We continue to publish stories of success and hopes of the communities that we help. We disseminate our stories through press releases sent to local and national media. We also try to make our presence known online through social media platforms. Through press releases in newspapers and digital platforms, we continue to increase awareness on responsible mining.

**Press &
News Releases**

The Minero Emergency Response Team (MERT) of Carmen Copper Corporation helped authorities in the search and rescue operations following a massive landslide that hit the City of Naga on September 20 last year. CONTRIBUTED PHOTO

Naga thanks Carmen Copper for sending rescuers

The city government of Naga, Cebu has commended Carmen Copper Corporation for sending emergency responders and relief aid to the city following a landslide that killed over 80 people and displaced hundreds of families in Sitio Sindulan, Barangay Tinaan.

In its resolution No. 040-Q-2018, City of Naga Mayor Kristine Vanessa Chiong and the City Council expressed their profound gratitude and appreciation to Carmen Copper for dispatching a team of responders during the September 20, 2018 landslide.

The sense of professionalism, commitment and dedication to duty of the company's responding team truly demonstrated the time-honored "Bayanihan" spirit of the Filipinos and, thus, deserving meritorious recognition by the top management of this mining firm," the resolution reads.

"The sense of gratitude of the entire officialdom of the City of Naga and the Nagahanons is hereby sincerely conveyed to the top management, key officials and rank-and-file workers of Carmen Copper Corporation for the company's noble effort in extending a hand in the midst of the city's most trying times."

Chiong personally paid a visit to Carmen Copper last February 14 to hand over a copy of the resolution to Carmen Copper President and CEO Roy Deveraturda.

Chiong and the staff of the City Information, Communications and Relations Office (CICRO) also took a tour of the mines and the

Carmen Copper Heritage Center for a mine and heritage benchmarking.

Last September, a team of well-trained rescuers and emergency responders comprising of 27 Carmen Copper employees was sent to Sitio Sindulan to assist in the search, rescue and retrieval operations in the aftermath of a massive landslide.

Carmen Copper also distributed drinking water and relief assistance to the displaced families then staying at evacuation centers.

The Minero Emergency Response Team's mission lasted for 17 days until the end of all search and retrieval efforts.

The company recognized these responders for demonstrating volunteerism and for having contributed to the overall healing process of the families whose loved ones perished in the incident.

Under the Chamber of Mines' Pusong Minero campaign, Carmen Copper responds to calamities and disasters by sending aid and assistance in various forms like relief goods, search and rescue efforts and engineering assistance to disaster hit areas.

In February 2017, following a magnitude 6.7 earthquake in Surigao, Carmen Copper sent a team of engineers and rescuers to assist in the structural assessment of buildings and help in the search and rescue operations.

The same team was sent to Ormoc, Leyte when an earthquake devastated the city in July of the same year. (PR)

SM Foundation slates mission in Consolacion

SM Foundation is extending health and wellness programs to the marginalized members of society with the goal of creating sustainable communities.

Through its medical mission program called *Camex Para sa Kapwa*, SM Foundation aims to provide free, comprehensive, accessible and quality medical and dental care to target beneficiaries nationwide.

This year, SM Foundation, Inc. is set to hold a free medical and

dental mission at the second level, SM Cinema hallway in SM City Consolacion on March 7.

SM Foundation will offer free chest X-ray, ECG, random blood sugar screening, blood pressure monitoring, medical consultation, dental services and free medicines to patients together with

the Department of Social Welfare and Development and the Municipal Health Office.

Connie Angeles, SM Foundation executive director for health, said SM Foundation's programs continue to grow each year in magnitude and in reach.

"The Foundation will continue to bring quality and accessible health service to even more communities nationwide," she said.

Prior to the health mission in Consolacion, SM Foundation will also

conduct a free medical and dental mission for all employees, affiliates, agency personnel, and tenants of SM Supermalls in Cebu at the Cebu Trade Hall of SM City Cebu.

For SM Foundation, caring for the sick and the less fortunate has gone beyond traditional. It means promoting the total wellbeing of individuals by providing them basic health services and most of all, encouraging them to have a positive outlook despite life's many challenges. (PR)

Carmen Copper engages residents in cleanups

To mitigate flooding and protect the rivers from pollution, Carmen Copper Corporation engaged the members of the community to help maintain cleanliness of the waterways through a Linis Estero activity held last February 23 participated by 88 volunteers from Barangay Cantabaco, Toledo City.

Together with Carmen Copper employees, the team collected about 434.5 kilograms of combined waste consisting of 68% non-biodegradable waste from the Cantabaco River. This river cleanup shall be

the first of the quarterly cleanup to be conducted in the barangay for 2019.

Carmen Copper-assisted people's organization, Hugpong Cantabacoanon para sa Kinaiyahar (HCK), mobilized 64 of

its members to participate and spearhead the activity.

Carmen Copper's Linis Estero Program aims to raise awareness on environmental protection and conservation. It is also a call to action against the improper disposal of waste that pollutes the rivers and waterways and now threatening the community's water sources.

During a brief program, Carmen Copper recognized HCK for its commitment to protect and nurture the environment through the company's Adopt-An-Estero/Water Body Program. The Cer-

tificate of Recognition was awarded to HCK represented by its President Alejandro Cantalejo.

The company also donated 20 steel drums to Barangay Cantabaco to be used as garbage bins for proper waste segregation in compliance with Republic Act 9003 or the "Ecological Solid Waste Management Act of 2000".

Meanwhile, last February 22, Carmen Copper also sent volunteer employees to participate during the Simultaneous River Cleanup in Luyang, Carmen that generated 5,180 kgs of garbage. (PR)

GARMEN COPPER, CANTABAGO RESIDENTS CLEAN WATERWAYS

The Carmen Copper Corp. engaged residents from Barangay Cantabaco, Toledo City in cleaning the waterways last Feb. 23.

The activity, participated by 88 volunteers, was meant to mitigate flooding during the rainy season and protect the rivers from pollution.

Volunteers and Carmen Copper employees collected 434.5 kilos of garbage from the Cantabaco River and 68 percent of which was non-biodegradable waste.

The activity was the first of the quarterly river cleanup to be conducted in Cantabaco for 2019.

The Carmen Copper's pro-

gram, "Linis Estero," aims to raise awareness on environmental protection and conservation. It is also a call to action against the improper disposal of waste, which pollutes the rivers and waterways.

The Hugpong Cantabaco-anon para sa Kinaiyahan (HCK), a Carmen Copper-assisted people's organization, mobilized 64 of its members to participate in the activity.

During a brief program, Carmen Copper recognized HCK for its commitment to protect and nurture the environment through the company's Adopt-An-Estero/Water Body Program.

The certificate of recognition was awarded to HCK, which was accepted by its president, Alejandro Cantalejo.

Carmen Copper also donated 20 steel drums to be used as garbage bins for proper waste segregation in Cantabaco. The village wants to be a model in following the provisions of Republic Act 9003, or the Ecological Solid Waste Management Act of 2000.

Last Feb. 22, Carmen Copper sent its volunteer-employees to participate in the simultaneous river cleanup in Barangay Luyang, Carmen. They collected 5,180 kilos of garbage. **S**

RESPECTING RIVER. Hugpong Cantabacoanon para sa Kinaiyahan members clean the river in Barangay Cantabaco, Toledo City to prevent it from dying and to preserve it for the future generation.

Clean water reaches Toledo hinterlands

Where there is clean water, there are healthy children.

Clean and safe drinking water is now accessible to children of Toledo City's hinterlands through the Ultra Filtration Aqua Tower system installed in four elementary schools where access to clean water used to be scarce.

Carmen Copper Corporation made potable water available to pupils of Bagukay Elementary School in Barangay Bagikay, Buswang Elementary School in Barangay Cambang-ug, Magdugo Elementary School in Barangay Don Juan Climaco, Sr. and Old Bucag Elementary School in Barangay General Climaco, all in Toledo City. This project is in partnership with Planet Water Foundation and Xylem Watermark.

It only took four days last March 13 to 16 to install four aqua towers by Carmen Copper and Xylem Watermark employee volunteers under the supervision of the Planet Water Foundation technical team.

The Aqua Tower does not only provide drinking water for the children, but also encourages them to wash their hands frequently for proper hygiene.

Ultra Filtration Aqua Tower System

The Aqua Tower can produce 10,000 liters of clean water per day that can serve 1,000 individuals. It is more than enough for the population of the school so it can be shared with the rest of the community.

The Aqua Tower is a sustainable water solution

Pupils of Buswang Elementary School in Barangay Cambang-ug, Toledo City now enjoy clean, safe water with the installation of the Aqua Tower in their school, a partnership project between Carmen Copper Corporation and Planet Water Foundation.

as it does not need power to operate. The only power needed, in few instances, is to pump the water up the holding tank. The pressure, created by the gravity, forces the water from the elevated tank to the ultra filtration system where sediments, bacteria, pathogens, protozoa, viruses and other microbiological contaminants greater than 0.1 micron are removed.

The resulting product is a safe, clean and crystal clear water that passed World Health Organization standards and far superior in quality than well water.

The Aqua Tower features nine faucets around the tower and liquid soap dispensers for hand washing. Volunteers conducted hygiene education to teach

the children the importance of frequently washing their hands to improve their health and prevent the spread of diseases.

It is simple to operate and maintain. Teachers and caretakers were given instructions how to operate and maintain the facility. The Aqua Tower can last up to 5 years before the filtration system would need to be replaced. Planet Water Foundation will also conduct regular project monitoring.

Another remarkable feature is its simple, turn-key installation. Volunteers need only about two to three hours to assemble the tower and complete all the piping works.

Making clean water available for all Carmen Copper, un-

der its Social Development and Management Program (SDMP), is committed to help its communities, especially the hard to reach areas, get access to clean water. In 2017, Carmen Copper, in partnership with Planet Water and Xylem Watermark also installed Aqua Towers in PandongBato Elementary School in Barangay Media Once and Biga Elementary School in Barangay Biga.

The project has benefited not only the school children but also the neighborhood. The Aqua Tower encourages children to come to school without worries of dehydration after a very active day. Washing hands was made easy so they can avoid acquiring communicable diseases such as coughs and colds. (PR)
